

2023 ANA-MI LEADERSHIP CANDIDATE

SECRETARY

Nadine Wodwaski, DNP, MSN-ed, ACNS, RN

University of Detroit Mercy | Faculty (FT) &
practicing CNS (Contingent)

Briefly describe your previous experience with volunteer leadership through ANA-Michigan or another organization.

For the past 7+ years, I have served as chair/committee member to ANA-MI evidence based practice/health policy committee. I started serving because I wanted to get involved and provide unique perspectives for enhancing our profession. For me: nurses + involvement + information = ANA-MI.

Additional Information:

As nursing faculty and registered nurse with excellent communication and organizational skills, I am adept at being open-minded, thus fine-tuning my problem-solving abilities. In exercising my professional commitment, information is critical for change, and the best way to affect change in the nursing workforce is to be present where decisions are being made, offering a unique perspective. We all have a shared responsibility; combining my gifts and serving as ANA-MI's secretary is one of the most valuable things I can share; my time, talent, and energy to help advance the nursing profession.
